

October 2021

**Position Announcement: Technical Support Associate**  
at the  
**Caribbean Cooperative Measurement Reporting and Verification Hub**  
**/ Greenhouse Gas Management Institute**

The Greenhouse Gas Management Institute (GHGMI) is actively seeking a qualified candidate to help build an organization supporting Caribbean countries to address climate change and manage their greenhouse gas emissions.

Specifically, GHGMI is recruiting a Technical Support Associate for the Caribbean Cooperative Measurement Reporting and Verification Hub (MRV Hub). The MRV Hub is based in Grenada, and works with 12 English-speaking CARICOM countries: Antigua & Barbuda, The Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Jamaica, Saint Lucia, St. Kitts & Nevis, St. Vincent & the Grenadines, and Trinidad & Tobago.

The ideal candidate will have a technical background and skill set (ideally with substantive experience in GHG emission estimation and capacity building) and the acumen and initiative to manage a diverse workload on deadline. Willingness and ability to learn new skills is required; training is available.

Start Date: Immediately  
Location: Based in one of the MRV Hub 12 member countries, or willingness to relocate to the Caribbean is strongly preferred  
Type: Full-Time, Permanent  
Salary range: Commensurate with experience and qualifications

### **Responsibilities**

Under the supervision of the MRV Hub Project Director and MRV Hub Officers, the Technical Support Associate will contribute to the on-going work of our educational, research, and professional programs. Specifically, the Technical Support Associate will:

- Support our team in gathering data and calculating GHG emissions at the national level
- Help with planned expert work crews focused on sectors such as Agriculture and Industrial Processes and Product Use
- Support teaching and mentoring in GHG accounting and the IPCC Guidelines
- Help our team support countries in the Caribbean in their reporting to the United Nation's Framework Convention on Climate Change (UNFCCC)
- Provide support or take lead on meetings, working groups, studies, reports, and other deliverables as needed
- Assist the project management team as needed on quick turn-around tasks and assignments
- Support our team with verbal and written communications to governmental focal points and non-governmental organizations (NGOs), and post content to social media accounts

## Minimum Qualifications and Experience

- Undergraduate degree in engineering (preferred), or degree in science, environmental management, climate change studies, economics, or similar is required. A post-graduate degree (MSc or equivalent) would be an advantage.
- At least 2 years of work experience
- Knowledge and/or experience with living and working in the Caribbean region. Broader experience working in an international context is an advantage.
- Strong verbal communication skills in English
- Good knowledge of Microsoft Office applications, particularly Excel
- Ability to work on a team with diverse technical backgrounds and specialties

## Desired Qualifications and Experience

- Relevant experience in the field of air pollutant emission inventories and GHG accounting
- Familiarity with the UNFCCC, Paris Agreement; knowledge of Kigali Amendment
- Familiarity with the 2006 IPCC Guidelines for National GHG Inventories
- Familiarity with UNFCCC processes and the requirements of reporting National Communications, and BURs, and/or experience with applying UNFCCC GHG inventory reporting guidelines
- Understanding of emission targets and Nationally Determined Contributions (NDCs)
- Technical understanding of GHG standards and protocols, industry/association GHG quantification guidelines, auditing and verification
- Experience with GHG mitigation and/or GHG reduction projects

## Abilities and Characteristics

- Passion for the mission of GHGMI and the MRV Hub
- Self-motivated to perform tasks and solve problems
- Results-oriented with high productivity
- Excellent organizational abilities
- Interest in learning about new subject areas
- Highly ethical behavior
- Communicate and work effectively in a virtual office environment with staff, stakeholders, and external parties
- Willingness to accept a flexible working environment

## Application instructions

Please send to [careers@ghginstitute.org](mailto:careers@ghginstitute.org) the following three items:

1. Your C.V.
2. A short writing sample (no more than 5 pages), and
3. A cover letter.

Only complete applications will be reviewed. **Applications will be reviewed as they are received and on a rolling basis.**

GHGMI was established in 2007 with the mission *to address climate change by building and developing a global community of experts with the highest standards of professional practice in measuring, accounting, auditing and managing greenhouse gas emissions; meeting the needs of governments, corporations, and organizations large and small.* For more information go to [www.ghginstitute.org](http://www.ghginstitute.org).

GHGMI is a U.S. 501(c)(3) registered charitable nonprofit organization. It operates as a uniquely virtual organization to minimize its carbon footprint. All staff telecommute from home offices.

GHGMI is committed to providing equal employment opportunities.
